Guide to prevention education at schools

April is recognized as Child Abuse Prevention Month and the blue ribbon serves as the international symbol for child abuse prevention. Family Nurturing Center leads the Blue Ribbon Campaign as a community wide effort to recognize our collective responsibility to prevent and confront all forms of child abuse and neglect. Here in Northern Kentucky, there are several opportunities for schools to promote and participate in Child Abuse Prevention Month awareness and education activities.

Promotion could be as simple as asking your students and staff to participate in Wear Blue Day on April 5th, or by creating a Blue

Ribbon Tree to display at your school. You can encourage your 3rd through 5th graders to participate in our annual Children's Art Contest or consider having our Kids on the Block puppet troupe visit your school to educate children on how to recognize and report abuse, or our bullying and school safety performance.

Family Nurturing Center provides child abuse treatment, prevention and education services to thousands of children and families every year who have been impacted by abuse and neglect.

This Blue Ribbon Campaign Guide should serve as an informational packet addressing

fun and educational ways to easily hold school awareness activities throughout all grades.

Blue Ribbon Ceremony is March 27th

FEATURED SPEAKERS: Craig McKee, WCPO News Anchor

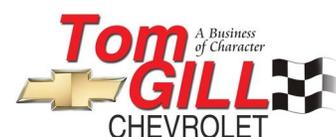

Elected officials, judges, law enforcement, businesses leaders, educators, and other social service agencies will join together to proclaim April as Child Abuse Prevention Month in Northern Kentucky at the Blue Ribbon Ceremony. The Ceremony will take place on Friday, March 27th, at Tom Gill Chevrolet, located at 7830 Commerce Drive, Florence.

Tom Gill hosts the annual event, which begins with a light buffet reception at 11:30 am, followed by the ceremony at 12:00 pm. The event is free and open to the public to attend.

Following the ceremony, guests are invited to tie blue ribbons along the white picket fence facing the interstate where they will remain for the entire month of April to serve as a visual

reminder of child victims of abuse and neglect.

Guests are asked to wear blue to the ceremony and join us for a large community photo.

Talking to a child who discloses abuse

The safety of the child is most important. Keep in mind that a child might be further abused if he reports that he has spoken to someone about the abuse. If you feel that the child is in danger, you must contact CPS immediately.

One thing that many people do not know about abused children is that they often love the person who is hurting them. This happens because the person who is abusing them is often someone they know well and trust a lot.

The children in your care love and trust you. A child who has been abused may start talking to you about it. He may do so because he trusts you and wants to share the burden he is carrying with you. Your reaction is very important to the child. If you react with disgust or don't believe what he is saying, he may stop talking to you about it. He will feel that you don't trust him. This will prevent him from getting help. It also prevents the abuse from stopping.

Keep the following considerations in mind when talking to a child who is disclosing abuse:

Help the child feel comfortable. Talking about abuse is not easy for the child. Respect the child's privacy and talk to him in a quiet and private place that is familiar to the child.

Reassure the child that it is not her fault. Most children who are abused feel, or are told by their abusers, that they are to blame for their own abuse. It is very important to tell the child that she is not guilty and that she is not responsible for the abuse. Let them know that they have not done anything wrong.

Don't react with shock, anger, disgust. Your reaction to that the child tells you is very

important to the child. He will be watching your reaction closely. Be calm. When you react with disgust or anger, he will not feel comfortable talking to you anymore.

Don't force a child to talk. Give the child time. Let her talk to you at her own pace. If the child is unwilling to talk or seems uncomfortable, don't pressurize her to do so. If the child seems uncomfortable when talking about certain specific things, don't press her for details.

Don't force a child to show injuries. If the child is willing to show you his injuries, you may allow him to do so. Also, you cannot insist that a child take off his clothing so that you can see his injuries.

Use terms and language that the child can understand. If the child says something that you don't understand, like a word for a body part, ask the child to explain or to point to the body part. Don't correct or make fun of the words the child is using. When you use the same words as the child does, it helps the child feel less confused and more relaxed.

Don't 'interview' the child. The purpose of your discussion with the child is to gather enough information so that you can make an informed report to the local CPS agency. When you have the information you need, you must stop the discussion. Don't try to prove that abuse has happened.

Ask appropriate questions. Choose your language carefully. This ensures that you

get correct information from the child. For example, if you see a bruise on a child and you suspect that it is the result of abuse, you may say to the child, "That looks painful. Do you want to tell me how you got it" or "Do you want to talk about that bruise you have". It would be inappropriate to say, "Did you get that bruise when someone hit you?" Remember that you can do more harm by supplying a child with words and ideas.

Don't ask 'why' questions. Why questions like, "Why did he hit you?" or "Why did she do that?" will only confuse a child. Children who are abused often do not understand why it is happening. These types of questions will force them to think about the reasons for the abuse.

Don't teach the child new words or give her new ideas. This is harmful. When you do this, you are biasing the child. Also, when you teach a child a new term or word, you are changing the child's original disclosure. This is important in relation to the court and law.

Be honest with the child. Let the child know what you are going to do. This will build trust. For example- let him know that you may have to tell someone so that he will not be hurt anymore.

Confirm the child's feelings. Let the child know that it is okay to feel scared, hurt, confused or angry.

Be supportive. Let the child know that you are glad she told you about the abuse. And that you believe her and that you care about her.

Children's Art Contest for 4th-8th graders

This annual contest is now open up to any child in 4th through 8th graders. Entries can be made using any medium up to poster size. The winning entry will be reproduced as an advertisement and displayed

Kids on the Block

The Kids on the Block program provides school based prevention services that equip children with the skills to recognize and report abuse.

The Bullying and School Safety show educates children about what constitutes bullying, promotes sensitivity toward peers, and helps children avoid or cope with bad situations.

The program is offered to all Kentucky schools and community groups for free in Boone, Campbell, and Kenton counties thanks to the support of their respective Fiscal Courts.

To schedule a performance at your elementary or pre-school, contact Autumn Caldwell at 859-538-1629 autumn.caldwell@familynurture.org.

Blue Ribbon tree and pinwheel displays

Create a Blue Ribbon Tree at school

Everyone has the power to make a difference in the life of a child. Choose to be the difference and Build a Blue Ribbon Tree with the rest of Northern Kentucky.

Select a Tree or Construct a Tree – creativity appreciated and encouraged! Decorate the tree with Blue Ribbons (store bought or home-made).

Hang ribbons on trees to represent any of the following:

- The number of students who attend your school.

- Reward kids for random acts of kindness with their name on a blue ribbon
- Use the ribbons to show your school's support for children in general
- Something significant to your school that shows child abuse prevention education.

Combine your Blue Ribbon Tree with a Pinwheels for Prevention garden. Pinwheels are available through Prevent

Child Abuse KY www.pcak.org.

“Sexual abuse thrives on our discomfort in even naming it—and this culture of silence gives power to the perpetrators.”

PTO host Stewards of Children training

As adult members of society, we are solely responsible for the safety of children. It's important to teach children how to recognize and avoid risky situations, but it's unrealistic to think that a child can fend off sexual advances by an adult. Fortunately, we can protect them by educating ourselves on how to recognize the signs of sexual abuse, react to our suspicions and respond to a child in need.

Stewards of Children is a revolutionary prevention program designed to teach adults to prevent, recognize and react responsibly to child sexual abuse. It uses real

people and real stories to show you how to protect children.

Encourage your parent teacher organization to host a free Stewards of Children training.

We understand the resistance that you may receive when bringing up the topic of child sexual abuse prevention to parents. A topic so taboo it makes everyone feel uncomfortable or question the school's reasoning for encouraging such a training. But prevention education is just that, educating adults on how they can protect their child and prevent the abuse from happening in the first

place. It is an education class for adults on the situations that a child can be placed in, unknowingly, where a perpetrator could be grooming a child for abuse.

To learn more about this 2-hour training, contact L-A Stopa at L-A.Stopa@familynurture.org. You can also view example video clips of the training at www.familynurture.org.

Child sexual abuse. There we said it. Now help us end it.

S.P.A.R.K. (Sparking Power And Resiliency in Kids)

S.P.A.R.K. serves children ages 4-18 who have experienced trauma, their siblings, and parents/caregivers. Participants meet in a group setting among peers to understand how trauma has impacted them, to develop coping

strategies to build resiliency, and empower one another to have healthy and safe futures. The sibling and parent/caregiver groups work simultaneously using a trauma-focused model to process the traumatic experience, learn effective family communication skills, and better understand the disruption that traumatic experiences can have on daily life.
